

VOL. XXXVII.

## EDITORIAL COMMENT.

Indiana troops left for Brownsville Thursday, 4,300 men and officers.

David Lloyd-George has been appointed to succeed Kitchener as Secretary of War.

The trial of Wm. H. Orpet, charged with the murder of Marion Lambert, is nearing an end. The prosecution has made a weak case.

Representative J. A. M. Adair, Democratic nominee for Governor, says if the election was held now Wilson would sweep Indiana by 50,000.

The bodies of Capt. Chas. T. Boyd, Lieut. Henry Adair and seven negro soldiers killed at Carrizal have been brought to El Paso. The bodies had been stripped of their uniforms and buried in the same grave.

The epidemic of infantile paralysis that is sweeping New York is carrying off a child every hour. From June 26 to July 5, there were 702 cases and 138 deaths. It has already spread to Newark, N. J.

Examinations are proceeding at Ft. Thomas and estimates place the rejections at 40 per cent. or about 1,000 of the 2,500 men. This would leave Co. D with more than the minimum number of 65.

The Republican committee has recommended Thos. L. Walker for a place on the State Election Commission instead of R. C. Stoll the present member. He belongs to the Ifert faction.

Starving Mexican women shouting "viva gringos" have stormed the governor's palace at San Luis Potosi, according to reports received by Gen. Pershing. The real money spent by the Americans has made a profound impression in Mexico.

Maj. Alex Dade, in a letter to his sister, Mrs. W. A. Glass, says he was with his command in both of the fights with Villa men at Guerrero and Tarnochief. He is in Col. Dodd's Seventh cavalry.

Carranza's last note verges on abject humility and the President now has the opportunity to arrange peace terms without going to war. Somebody has evidently beaten some sense into the Mexican's head.

The seven banks in Christian county show a total of \$2,480,888.75 in deposits July 1. This includes only a small part of the \$400,000 bond money, the bulk of which is on time deposits at 3 per cent. interest until needed. All of the banks have had a successful half-year, paying dividends from six to ten per cent.

Viscount Bryce in a speech Wednesday said peace is impossible until Germany is thoroughly whipped. He said Great Britain was fighting for the deliverance of Belgium and France and such changes in the east as will make it impossible for the Turkish allies of Germany "ever again to massacre their Christian subjects."

Judge Reed granted an injunction in the Paducah City Commission cases and then dismissed the injunction, opening the way to an appeal by the Washington appointees. This leaves Gov. Stanley's appointees in for the present. The Governor's act is liable to stand for the reason that the single Commissioner left in office could not do business in the absence of a quorum.

## They Whip Bulls.

Adj. Gen. J. Tandy Ellis reports a conversation relative to the courage of the Mexicans. Two Irishmen were discussing conditions along the border and one remarked that he could go to Mexico and whip every native, adding that Mexicans won't fight. "Won't fight," said the other, "Why, faith and they whip bulls down there and what chance do you think you would have?"

France has 800,000 war orphans.

## WAR CLOUD DISAPPEARS

Arredondo Informally Notified Proposal to Adjust Difficulties by Negotiations.

TRANQUILIZE BORDER  
Militia to Be Kept on Line as Long as Slightest Danger of Raid Exists.

Washington, July 7.—The de facto government of Mexico has been notified through Eliseo Arredondo, ambassador-designate, that the United States welcomed Gen. Carranza's proposal to adjust all pending differences between the two governments by direct diplomatic negotiations. Later a formal note will confirm the ambassador's report.

Immediately after the cabinet meeting Secretary Lansing plans to leave for a month's vacation. Counsellor Polk will administer the affairs of the state department in his absence and meet Mr. Arredondo in the informal discussions at which a solution of the Mexican problems will be sought.

AID IN RESTORING ORDER.

It was evident at the state department that officials that believe an opportunity has now been presented out of which may come a means of giving the de facto government material aid in restoring order throughout Mexico. It is known that the pacific nature of the Mexican note which brought the crisis between the governments to an end is construed here as indicating that Gen. Carranza, besides being impressed by American military preparations has been deeply influenced by the pressure and argument brought to bear on him by friends in the United States, European diplomats in Mexico City and particularly by reports of the many Latin-American powers.

The latter have exerted themselves to the utmost to avert war and to foster in Gen. Carranza's mind the idea of Pan-American unity.

## TRANQUILIZE BORDER FIRST.

While the immediate purpose of the negotiations in which Secretary Lansing's note is to be the first step will be the evolution of some plan for tranquillizing the border regions, the discussion may take on a wider scope. There is little doubt that Mr. Arredondo received the impression from Secretary Lansing that if adequate guarantees as to the security of American and foreign interests in Mexico could be secured the Washington government believes it possible that the financial aid so greatly needed by the de facto authorities could be found.

Mobilization of the national guard continues to go forward on schedule according to war department reports and the state soldiers are certain to gain valuable experience on the border before they are released from the federal service. Just how long it will be necessary to maintain all or part of the force to aid the regulars in patrol duty cannot now be predicted with accuracy.

Events in Mexico will determine that. It is certain, however, that the entire mobile regular army will be kept on border garrison while there is the remotest danger of new bandits uprising.

## Double Tragedy.

Lancaster, Pa., July 7.—In a crowded waiting room at the Reading railroad station here Tuesday night, Charles Dawson shot his wife, Madge, and then committed suicide. They are said to be from Amsterdam, N. Y.

The woman, though hit by seven bullets, remained on her feet until she reached a grass plot outside. Dawson followed, picked her up in his arms, kissed her, then sent a bullet through his own head. Both died later in a hospital.

## Storm Damage.

Seventeen dead and property loss aggregating several million is the toll of the storm that swept Louisiana, Mississippi, Alabama and Florida.

## KY. GUARDSMEN ARE TOO LIGHT

Many More Rejected—An Angry Woman Causes First Wounded Trooper.

Fort Thomas, Ky., July 7.—Rejections continued to run heavy yesterday among the state guardsmen, who presented themselves for examination by the federal officers. Company E, First regiment, Louisville, losing approximately fifty men, out of an enlistment of 127, and Company F, of Louisville, 24 out of an enlistment of 147. The main deficiency again was that of weight.

The field hospital was busy today caring for the men who took their second inoculation for typhoid. This process resulted in a complete loss of "pep" by the men that submitted arms to the physicians last night. Sore arms, headaches and drowsiness were the order of the day.

The field hospital corps was called upon today to care for its first wounded man, when Private Bryant Parr, Company I, Lexington, was brought in with both feet suffering from bird shot wounds inflicted by a woman living on the river bank just outside the grounds.

Parr's story was to the effect that he went to the river to wash some clothes and arrived there just as a street car filled with soldiers was passing the house of the woman, who was being jeered by the soldiers. She turned into the house, secured a shot gun, and blazed away in the direction of the car. His wounds, it was announced, were not serious.

## REARED IN THIS COUNTY

Cancer of Stomach Causes Death of Prominent Citizen of Trigg.

Ross R. Morris, a leading citizen of Trigg county and a native of Christian, died a few days ago at his home near Wallonia, of cancer of the stomach. He was 61 years old and is survived by his wife and several children. Mr. Morris was a member of the Christian church.

## Haley-Rogers.

Ralph Haley and Miss Fern Rogers, young people of the Palestine neighborhood, North Christian, were married in Clarksville a few days ago.

## ASK MANY QUESTIONS

Can Guardsmen Be Court-martialed for Refusal Still Undecided.

New York, July 7.—What disposition shall be made of National Guardsmen who refuse to take the new oath of allegiance pledging themselves to foreign service, if it is required, has become too big a problem for the department commanders, it was learned last night at headquarters of the Department of the East and the question has been placed in the hands of the Judge Advocate General at Washington. It is understood at Governor's Island that among the questions the Judge Advocate General has been asked to answer are:

Can the offender be permitted to remain a member of the guard performing duty at the home station or depot?

Can he be court-martialed?

Can he be drafted for service?

Whichever of these courses is approved by the Judge Advocate General it was said at division headquarters here, will be adopted by all department commanders.

No anxiety is felt about the French sardine supply as long as herring continue plentiful along our coast.

It is solemnly promised that the noble Carranza troops will start out after Villa on June 31.

## NEW SUPT. FOR REFORM HOUSES

Ernest J. Howell succeeds J. W. Milliken at Greendale.

Frankfort, Ky., July 7.—Ernest J. Howell, of Owensboro, will succeed John W. Milliken as superintendent of the house of reform at Greendale August 1. Mr. Howell was elected to the position by the State Board of Prison Commissioners. Mrs. O. B. Williams, of Owensboro, daughter of the late Alf Taylor, Tennessee Congressman, and niece of former Gov. Bob Taylor, of Tennessee, was appointed stenographer at the institution.

No other positions were considered by the board at this meeting, as the terms of the wardens and other officers and guards at the two institutions expire August 30 under the new prison law. Some of these will be filled at the first meeting in August, the terms to be for four years.

## COMMISSIONERS MET WEDNESDAY

And Cited a Saloon Man to Answer Serious Charges.

The City Commissioners met Wednesday and cited A. A. Ferguson, a saloon keeper, to appear and show cause why his license should not be revoked on a charge of keeping open after midnight.

Penn & Polk, proprietors of a colored pool room, were given a similar notice, on a charge that Penn permitted gaming on his premises.

Two ordinances were also passed. One re-enacts an old ordinance requiring weeds to be cut on vacant lots and the other requires butchers and meat vendors to keep wagons screened in which fresh meats are being hauled during the summer months.

## SHOT FROM AIRGUN

Hits Little Joseph Knight Above Right Eye.

Joseph Knight, the little five-year-old son of Judge and Mrs. Walter Knight, narrowly escaped the loss of an eye yesterday morning. A little negro boy across the street shot from an airgun a B B shot that went wild and struck the little boy over the right eye. The shot after glancing was imbedded under the skin about an inch from the eye. Dr. R. L. Woodard rendered surgical aid and the injury is slight.

## OFFICIAL VOTE

Gave Wets a Majority of 66 at Gracey.

The official vote in the Gracey prohibition election Wednesday was 158 wet and 92 dry, or 66 majority for the wet side. The Drys realized the fight was hopeless and made little effort to close the saloons.

## After Something Bigger.

Former Governor James B. McCreary resigned yesterday as president of the Kentucky Rural Credits Association, and Robert McDowell, of Louisville, was elected to succeed him. Governor McCreary said he will give up his Lexington quarters and return to his home at Richmond. He expects to go to Atlantic City for a month's vacation soon. He remains on the Board of Directors.

## \$7,000 To Discover America.

The discovery of America cost a little more than seven thousand dollars; at least so say some documents that have just been found in the archives of Genoa. These documents give the value of Columbus' fleet as \$3,000. The great admiral was paid a salary of \$300 a year; the two captains who accompanied him received a salary of \$200 each, and the members of the crews were paid at the rate of \$2.50 a month each.

The Ellis Ice Co. announces that it will, beginning July 10, supply the public with pure distilled water bottled for family use. It will be handled in sealed bottles of various sizes and will be delivered in quantities to suit

## DIES THINKING SON CAPTAIN

Aged Man Is Not Told of His Son's Glorious Death.

Portland, Ore., July 7.—Without knowing his son had met death on the Carrizal battlefield, Samuel Adair, the father of Lieut. Henry Rodney Adair, is dead after a lingering illness. His last words were for his son.

"Henry is now a captain," he said. "Henry has received his promotion."

Lieut. Adair was to have been a captain July 1. Morris Adair, another son, telegraphed to El Paso today asking that his brother's body be sent here. Father and son probably will be buried at the same time.

Samuel Adair was in his sixty-ninth year. He came with his father to Oregon in 1848 from Louisville, Ky.

## Killed By Hand Car.

Princeton, Ky., July 7.—Luther Fralick, aged twenty-four, single, was instantly killed here by being run over by a hand car. He was employed as a section laborer by the Illinois Central Railroad Company, and was thrown under the hand car when it became derailed by running through an open switch.

## Robbers Shoot Four.

St. Mary's Kan., July 7.—Four persons were shot, one probably fatally, by robbers who escaped after stealing \$2,400 from the St. Mary's bank here Wednesday. The robbers came in an automobile with a woman who stood guard while three robbers fired upon fleeing citizens.

## TO BE HEAD OF REFORMATORY

Will Replace Warden A. J. G. Wells.—Chilton May Stay.

Frankfort, Ky., July 7.—T. M. Phythian, now aide to Gov. Stanley, will be elected warden of the Frankfort Reformatory to succeed Warden A. J. G. Wells. It is probable that Warden John B. Chilton, of the Eddyville Penitentiary, will be retained.

No intimation is given as to who Mr. Phythian's successor will be, but that there will be a vacancy in the Governor's immediate official household September 1 is a certainty. Mr. Phythian has spent his working life in various capacities about the prison, having been a deputy warden, and his greatest ambition has always been to be head of the prison staff.

## DROWNS WHILE BATHING.

Owen Potter, of Bowling Green, loses Life in Barren River.

Bowling Green, Ky., July 4.—Owen Potter, 23 years old, clerk of the water works and cemetery departments, was accidentally drowned in Barren river, two miles from the city, this afternoon at 4 o'clock while in bathing with several young men and women. Young Potter attempted to swim to the other side a distance of only twenty feet, when he became exhausted. Miss Nell Drake, who rescued a man from drowning last Friday, arrived too late to save him.

The body was found two hours later.

Potter was a son of the late Lucien B. Potter. He succeeded his father in his position. He leaves a mother, Mrs. Sallie Tuck Potter, and a brother, David T. Potter, of Lexington. He was a nephew of Mrs. Herrschel P. Smith, of Louisville, and J. Whit Potter, president of the American National Bank of this city. He was an Elk.

The Ellis Ice Co. announces that it will, beginning July 10, supply the public with pure distilled water bottled for family use. It will be handled in sealed bottles of various sizes and will be delivered in quantities to suit

## AUSTRIANS ARE AGAIN DRIVEN BACK

Consolidation of Gains on The West Occupies Attention of British.

## RUSSIAN VICTORY GREAT

Germans Shift Bulk of Defenders on Somme to Face The French.

London, July 7.—Violent counter-attacks by the Germans on almost the entire line of the French advance in the Somme region, show a change in the situation from the earlier days of the Anglo-French offensive.

Meanwhile both French and British are consolidating their positions and are undoubtedly making preparations for a repetition of the great bombardment which preceded the first impetuous rush.

While the situation in the Verdun region remains comparatively quiet there are heavy bombardments on both sides of the Meuse. No advances are recorded by either French or Germans.

The seriousness of the Russian drive against the Austrians and Germans in the last month is indicated in reports from Petrograd which say the Austro-German losses, in the endeavor to stay the advance of Gen. Brusiloff's armies, total nearly a half million men, about half of whom are prisoners. Not less than 250 guns of various sizes and more than 700 machine guns and an immense quantity of other booty have been taken.

The Austrians admit a serious defeat west of Kolomea, where they were driven back nearly five miles.

The latest official statement from the Russian war office announces the capture of approximately 10,000 additional prisoners, 5,000 of whom are said to be Germans, taken in a recent battle on the Dniester. About 5,000 other prisoners were captured on other sectors of the Russian front.

The Germans admit the withdrawal of Gen. von Bothmer's army in the Tarnopol sector before the powerful attacks of the Russians. They concede also an advance by the British south of Tchepel in the western zone.

## Women in War.

High school girls are flocking in bands to the Russian trenches and joining the army as private soldiers. Some have been killed in battle and are buried in the flat steppes of Poland or on the steep slopes of the Carpathians.

Many have marched off further to the front, and through changes in regimental formation have been completely lost to their friends at home who have no clews to their fate. Some

**DEMOCRATIC TICKET**

For President.  
**WOODROW WILSON**,  
of New Jersey.  
For Vice President.  
**THOS. R. MARSHALL**,  
of Indiana.

The Indiana soldiers are not faring  
much better than those of Kentucky,  
about one-fifth of them being unable  
to pass the required examinations.

A report from Holland indicates  
that the Germans have prepared a  
counter offensive between the Bel-  
gian frontier and Arras where it is rum-  
ored a formidable concentration of  
artillery is being made.

The British continue to press the  
Germans back on the Western front  
while the Russians are doing the same  
on the eastern battle line. The French  
are more than holding their own,  
while the Italians are keeping the  
Austrians busy.

A report from Chihuahua says Gen.  
Ignacio Ramos was killed in a fierce  
and bloody battle that raged all day  
Tuesday between a small force of the  
de facto troops and a large band of  
Villa followers at Corral ranch, 15  
miles southwest of Jimenez. Both  
sides suffered heavy losses.

The Prohibitionists have adopted a  
new party emblem. It consists of a  
small camel made of gunmetal, in the  
form of a button, bearing the letters  
"P. P." for prohibition party. This  
radical departure from the phoenix  
would seem to indicate that the party  
is preparing to get a hump on itself.

The number of German prisoners  
reported by the British and French  
reached about 16,000, while the Ger-  
man casualties have been unofficially  
estimated at 60,000. On their part,  
the Germans report the taking of a  
considerable number of British sol-  
diers. Comparative quiet for the  
time being has settled over Verdun,  
although the bombardments of neces-  
sity, continue.

The latest Carranza note proposes  
that the differences between the gov-  
ernments be settled by mediation or  
by direct negotiations. It is remark-  
able for its brevity, its restrained and  
friendly tone and for the absolute lack  
of any of the strong, even insolent  
language which characterized the last  
two communications from the de fac-  
to government. It treats as a closed  
incident the exchange of unfriendly  
communications which brought war  
almost within sight.

Women now out-number men by  
more than 1,250,000 in the British  
Isles, while in some of the Empire's  
Overseas Dominions men are in a large  
majority. To redistribute these  
women, who are war widows, when the  
conflict is over, the Salvation Army  
has a scheme to send them to the  
Dominions to remarry and is raising  
a fund of \$1,000,000 to defray the  
expenses of their emigration and that of  
their children. It is estimated that the  
cost of emigration would average  
about \$75 for a single woman and \$200  
for a family of three and that by  
means of the \$1,000,000 fund at least  
5,000 widows, with 10,000 children  
could be emigrated.

Only a Few.  
A few people take their pleasure so  
seriously that they have to open  
shops and get into business for relaxa-  
tion.—Washington Star.

**ELECTRIC CHAIR FOR DOGS**

New Form of Legal Execution for  
Cannibals Adopted in Omaha and Ap-  
proved by Humane Society.

The first legal electrocution of dogs  
in Omaha occurred the other after-  
noon at the city pound.

The cage into which the dogs were  
placed is six feet by six feet, with a  
marble floor. Strips of steel were  
placed both ways of the marble, and  
through this metal the fatal contact  
was made. After the dogs had been  
inclosed a switch was thrown. The  
victims toppled over instantly, and  
within three seconds were lifeless.

Three dogs were electrocuted at  
one time. When further improve-  
ments are made it will be possible to  
kill as many as twenty with the same  
current. The device has been de-  
clared a success, and the humane  
society people say it is the most hu-  
mane method of killing dogs. The  
old method of applying charcoal  
fumes to impounded dogs will be  
abandoned.

**SOMEbody HAD TO DO IT.**

"Uullo, mate, wot's up with yer  
'and?"

"Smashed me thumb breakin'  
coal."

"Breakin' coal! Wot was you  
breakin' coal for—warrn't the missus  
well?"—Cassell's Saturday Journal

**HIS STYLE.**

"Villa is enough to give cold feet  
to any de facto government."

"He certainly is something in the  
nature of a killing frost."

**Good Lights Necessary.**

Have you been using the same old  
spatter lamps to read by? Then it is  
no wonder you are having trouble with  
your eyes. It pays to have good lights  
to work and read by. Better pay out  
money for good lamps than for spec-  
tacles. There are a number of im-  
proved makes of kerosene lamps that  
give a good, strong, steady light and  
also some very brilliant and econom-  
ical gasoline lights. Some of these al-  
most equal the brilliancy of electric-  
ity.—Exchange.

NATIONAL CARTOON SERVICE CORP. N.Y.

**Stopped Those Pains.**

Copper Hill, Va.—Mrs. Ida Con-  
ner, of this place, says: "For years  
I had a pain in my right side, and  
was very sick with womanly troubles.  
I tried different doctors but could  
get no relief. I had given up all  
hope of ever getting well. I took  
Cardui, and it relieved the pain in  
my side, and now I feel like a new  
person. It is a wonderful medicine."  
Many women are completely worn  
out and disengaged in account of  
womanly trouble. Are you?  
Take Cardui, the woman's tonic.  
Its record shows that it will help you.  
Why wait? Try it today. Ask your  
druggist about it.—Advertisement.

**NOTICE**

To the Voters of Christian  
County, Kentucky.

At a meeting of the County Court  
of Christian county, held June 28,  
1916, it was ordered that a new election  
precinct be created to be known  
as Sinking Fork precinct No. 33, with  
boundaries as follows:

Beginning at the point in the center  
of the Princeton road opposite the  
present home of L. W. Means; thence in  
a southerly direction to the southern boundary of Jim Perkins  
(col) farm; thence in a westernly direc-  
tion in a straight line to a point  
where the southern boundary of the  
farm of L. M. Hill adjoins the Shiloh  
lane, including the farms of Boyd and  
Harris, Mrs. S. L. Bowling, S. R.  
Body, Mrs. Hattie Reynolds and L. M.  
Hill; thence still in a westerly direction  
slightly northward to a point  
where Sheridan creek empties into  
Sinking Fork, including the farms of  
Mrs. J. O. Cooper, Judge Joe McCarron;  
thence with Sheridan creek to its source,  
including the farm of J. C. Marquess; thence from the source of  
Sheridan creek or from a point oppo-  
site Herschel Lacey's to Claud Hill's,  
excluding him, thence to Will Atwood's,  
including him; thence in a northerly direction to where the  
Cornelius lane intersects the Princeton  
road, including Jas. LaPrade, Feland  
Withers farms; thence still in a north-  
erly direction with the Cornelius land  
to a point in the center of the road  
opposite Horace Cornelius' present  
home; thence in an easterly direction  
to J. L. Sadler's farm, including him;  
thence in an easterly direction to E.  
E. Cook's present home, excluding  
him; thence still in an easterly direction  
to the residence of Isaac Lyons,  
including him; thence to Ben Spurin's  
(col), including him; thence to Albert  
Higgs, including him; thence in a  
culvert in the Buttermilk road near  
the southwest corner of H. H. Gandy's  
farm; thence with the center of the road  
to the foot of Bryant Hill; thence with a straight line, the  
present boundary separating East  
school house precinct and Concord  
precinct, to a point on the Princeton  
road near C. C. Carter's residence;  
thence in a westerly direction, with the  
Princeton road to the beginning.

It was also ordered that a reappor-  
tionment of magisterial districts Nos.  
6 and 7, made necessary by the crea-  
tion of the new precinct from portions  
of the two districts, be made, and  
that all of the above described Sinking  
Fork precinct be attached to and made  
part of magisterial district No. 6,  
which is at present the smaller of the  
two districts.

The approximate number of votes  
included in the new precinct will be  
250, taken from the precincts known  
as Bainbridge, Gracey, Brent's Shop  
and East's School house, greatly re-  
lieving the over crowded condition of  
those precincts.

WALTER KNIGHT,  
Judge C. C. C.

Attest:  
LUCIAN J. HARRIS,  
Clerk C. C. C.

**Makes a Manly Confession.**

I am a man and I should dress like  
a woman, if I were not such a cow-  
ard, a writer in Life says.

That is, I should revel in velvets,  
in silks and satins, in plumes and ruffles,  
in rich or delicate colors, in daring  
and dashing modes, in endless variety  
suited to my whim, to the weather  
or the occasion. It would be great fun.  
It would be an artistic gratification.  
But I don't dare.

In the days of knighthood, when  
men were really brave, they out-  
dressed the women; but in these de-  
generate days we do not venture our  
fancies beyond cravats. No man in  
modern times has dared to dress as  
he pleased except Oscar Wilde, and  
we buried him with craven hisses.

We men rail at women's fashions,  
but in our hearts we know ourselves  
to be the slaves of fashion; of one  
dull, deadly, monotonous fashion,  
which we hate, but from which we are  
too cowardly to free ourselves.

**BRIDES PICKED BY PICTURES**

Japanese in Honolulu Eagerly Await  
Better Halves Whom They Have  
Never Actually Seen.

Another choice lot of Japanese  
"picture brides" are being distribut-  
ed today at the United States immi-  
gration station. The T. K. K. liner  
Shinyo Maru brought 44 of them in  
from the Orient Tuesday morning,  
and they are being handed out to  
their respective or prospective hus-  
bands (after proper identification of  
the men concerned in each matrimo-  
nial venture). Yesterday fifteen to  
twenty of the "picture brides" were  
allowed to go. A long procession of  
hacks took the young women and the  
Japanese men up town, where they  
were married, returning to the sta-  
tion afterward with marriage certifi-  
cates, before leaving for their new  
homes here and on the other islands.  
United States immigration officials  
say that on the average one hundred  
"picture brides" arrive here each  
month on steamers from the Orient.  
They and other oriental immigrants  
are loaded upon a barge from the  
steamers and towed over to the im-  
migration station landing. As they  
file up to the station, dressed in all  
their Japanese finery, they make a  
pageant picturesque in the extreme.—  
Honolulu Star.

**BIBLE ESCAPED THE TORPEDO**

Floated to Scottish Coast From Vessel  
That Had Been Sent to the  
Bottom by Submarine.

In the relic room of a Chicago  
mail-order house there has been  
placed on exhibition a water-soaked  
family Bible that had survived a tor-  
pedo from a submarine and the bil-  
lows of the Atlantic ocean.

Ordered by a customer, J. Terry  
Morgan, in Sierra Leone, West Af-  
rica, the Bible was sent by parcel  
post from Chicago and was a part of  
the mail on board the steamer Fal-  
laba when she was torpedoed and  
sunk in March, 1915, off the south-  
west English coast.

In some way the Bible was torn  
loose from the mail bag by the explo-  
sion. It was picked up by a fisher-  
man weeks ago on the coast of Scot-  
land.

How, with its compactness and  
weight, it could have floated that dis-  
tance, is a mystery. The book was  
sent to Liverpool, the postmarks and  
shipper's name being deciphered,  
and returned to Chicago.

**FIND COMFORT IN TRENCHES**

British Soldiers at Front Provided  
With Beds and Fires, and Have  
Dry Boots Awaiting Them.

Enormous improvements have been  
made in the British trenches since  
last winter. Most of them have  
boarded floors, others have brick  
floors.

They have a system of trench  
pumps to get rid of the water, and  
pipes which run a mile and a half  
back from the front of the trench  
supplying drinking water to the men.  
The dugouts are comparatively com-  
fortable. The men have rough beds  
to lie on, and many contain tables.  
Many of them also have small bra-  
ziers with fires.

One of the most valued presents  
which the men receive are boxes of  
nightlights, which they are allowed  
to burn in their dugouts. This year  
the men have been served out with  
long rubber boots. When a battalion  
of men is coming to the trenches it  
finds in the supporting lines these  
boots waiting.

They remove their own boots, get  
an extra thick pair of stockings, and  
put on the rubber boots. When com-  
ing away after turn in the trenches  
they leave these boots at the same  
station, and receive their own boots  
and socks, which have been dried for  
them.

## HOW LONG YOU WILL LIVE

Expectation of Life Tables Prove Women Live Longer Than Men.

Washington, July 6.—How long will you live? Uncle Sam can tell you—almost in the first life expectation tables this government has ever prepared and which will be issued soon by the census bureau. The tables are similar to those prepared by life insurance companies, but relate to the whole population in the territory covered, while the company tables relate only to the insured persons. The population embraced by the tables is that of the "registration area"—New England, New York, New Jersey, Michigan and the District of Columbia—a population which is, however, characteristic of an important portion of the United States.

One interesting point brought out by the table is that female whites have consistently a longer expectation of life than male whites at all times from birth to 94 years of age. Another matter of interest is that the healthiest year of life for both male and female native whites is the twelfth, when the death rate, which for the first year was more than 12,000 for boys and 10,000 for girls a 100,000, is reduced to 228 and 198 respectively.

At birth, it is shown, the average expectation of life for native white males is, approximately, 50½ years, and for females 53½ years. For those who manage to reach the first milestone, however, the expectation is, respectively, 57 and 60 years.

A striking difference between expectation in city and country is shown. The average white male at birth in rural districts has 7.7 more years to live than if born in a city. The expectation of the average female is increased also, but only six years.

### Raid Victim Files Suit For Damages.

Princeton, Ky., July 7.—As the result of an alleged possum hunter raid in Hopkins county last year, S. F. Cates, formerly of that county, has filed suit in the Hopkins county Circuit Court against thirty-one prominent farmers of the White Plains section of that county asking for \$11,000 damages by reason of a whipping he received.

Following the alleged whipping Cates was ordered to leave the State, it is said, and he now resides in Evansville, Ind.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When it is inflamed you have a rumbling sound or imperceptible hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness cured by our new remedy. Hall's Catarrh Cure. Send for circulars from F. J. CHENEY, & CO., Toledo, Ohio. Sold by Druggists, etc.

Take Hall's Family Pills for constipation.

## Sale July 13th

-- OF --

## Teams, Tools, Etc.

### Thursday's Game.

Clarksville 9, Hopkinsville 4. Henderson 17, Owensboro 4. Dawson 7, Madisonville 3.

### TRACHOMA.

At the June meeting of the City Board of Health, the following resolution was adopted unanimously; viz: "Whereas it has been reported officially by a U. S. Public Health Surgeon, also by the State Board of Health that several cases of Trachoma exist in the schools of Hopkinsville, that might if neglected become a menace to public health. Therefore under the law this Board must take proper steps to stamp out this contagious and destructive disease to the eye-sight, and to further protect other children from contracting this disease in our midst, due and timely warning is given that no child will be allowed to attend school in the City of Hopkinsville, that is afflicted with the disease, until such one has been treated for same. Parents, or guardians who are unable to pay for said treatment, such a case, if any will be treated "free" by the specialists of his disease.

This is not an arbitrary ruling of the Board, but a State law, and the State Board of Health say that it must be enforced.

DR. M. W. ROZELL,  
Chairman City Board of Health.

### CONFEDERATE

#### MEDICAL INSPECTION

A friend was talking to Basil W. Duke about the rejection of so many Kentuckians who enlisted in the Kentucky National Guard and expected to be received in the United States Volunteer Army. The General said:

"When I went into the army I weighed 120 pounds and was five feet nine. When Castlegan enlisted he weighed 128 pounds and was six feet two. Both of us would have been thrown out under the present standard. My custom was to ask the young man ambitious to enlist in the army, 'can you ride a horse?' and if he said yes, I had him sworn in and that was the end of it. We never had a hospital, we rarely had anybody sick—our ranks were only thinned by the enemy's bullets."

### Sudden Death.

Mrs. Goldy L. Hill, wife of James E. Hill, died Thursday night at her home at 945 Younglove street, of cardiac asthma. Her death was sudden and an inquest was held. She was 35 years old.

Third Circle of Bethel Baptist Association at Salem Church July 29-30.

The Millennium—J. E. Gary and E. L. Edens.

African Missions—H. A. Rives and M. M. McFarland.

The Family Altar—W. W. Radford and S. B. Arnold.

Some Convention Matters—G. H. Stowe and H. E. Gabby.

Sermon—M. M. McFarland.

### Methodist Church.

Rev. Lewis Powell, D. D. Pastor.

Sunday School at 9:30 a. m.—J. H. Cate, Supt.

Men's Bible Class—Ira L. Smith, Teacher.

Woman's Bible Class—Mrs. Lizzie Clark, Teacher.

Primary Department—Miss Mary Walker, Supt.

Intermediate Classes for all grades and ages.

Dr. Powell will preach at 10:45 a. m. on "Sleeping Christians, and the Perils of Sleep;" at 8 p. m. he will preach on "Humanity's Universal Wants and The Value of Work."

Epworth League at 7 p. m.

John C. Lawson, President

Many christians grow sickly, pale and die during the midsummer. You had better watch and pray.

### First Christian Church.

J. Newton Jesup, Pastor.

Bible School 9:30 a. m. Geo. W. Crenshaw, Supt.

Christian Endeavor 7 p. m. Subject, "The Consecration of Purpose."

Prayer meeting Wednesday evening. Subject, "Where I have found Comfort."

The pastor will preach in the morning on, "The Gospel for Dumb Animals." And in the evening on, "Flesh and Spirit." Illustrated from analogies in nature.

Miss Mary Howard Golliday, of Lebanon, Tenn., is visiting Mr. and Mrs. Richard Leavell.

Miss Etta Masten will arrive this week to visit Mr. and Mrs. Eric G. Peterson.

Mrs. M. C. Forbes and Miss Annie Forbes will return this week from Battle Creek, Mich.

Miss Saluta Wood, of Indianapolis, is visiting her grandmother, Mrs. M. H. Wood, on South Main.

Thos. R. Underwood will return to-day from Lexington, where he has been at work on the Leader for several weeks.

### Fewer Lynched.

Records kept at the Tuskegee, Ala., Institute show that there were 25 lynchings in the United States during the first six months of this year, compared with 34 for the same period a year ago. Two whites and 23 negroes were mob victims and eight of them were killed in Georgia. Five were charged with attacks upon women.

### His Field.

"What is the subscription price of your paper?" asked the stranger, entering the editorial sanctum.

"Two dollars a year," replied the editor, briskly.

"Do you cater to any particular class of readers?"

"Yes; to those who have the \$2."

## MULES WANTED!

We want mules from 7 to 15 years old, 15 to 16 hands high, sound. C. H. LAYNE.

A collapsible stove pipe with a heat insulating jacket has been invented for campers.

# TO THE PUBLIC

We are going to commence selling and delivering DISTILLED WATER July 10th. We have gone to considerable expense in putting in steam condensers, aerators, filters, etc., for the distilling of this water and we feel safe in guaranteeing every bottle to be absolutely pure. This water will be handled in 1-2 gal., 1 gal. and 5 gal. bottles, to suit the trade. The 1-2 gal. bottles are handled in 3 gal. and 5 gal. crates and are especially handy for family trade. All bottles are sealed. Our prices are:

One gallon 10c.

Three gallons 25c.

Five gallons 35c.

## ELLIS ICE & COAL COMPANY

INCORPORATED

New Cruiser Aeroplane Flies  
In The West.

A Cruiser aeroplane, in size a rival of the "America," which was built to fly across the Atlantic, has been completed and has been used in successful flights in California preliminary to being tested for army service. The biplane wing spread of 72ft. and is 40 ft. long; it weighs 5,000 lbs. and has 975 sq. ft. of lifting surface, which is about 175 sq. ft. in excess of the "America's." The July Popular Mechanics Magazine contains a picture of the craft.

### GRAIN

#### Investors And Speculators.

Join the Syndicate, formulated to operate in the grain market, upon a new plan. Write for full particulars.

R. W. NEWMAN,  
40 Wesley Block,  
Columbus, Ohio.

Patrons Shave Themselves in  
Novel Barber Shop.

A barberless barber shop was opened recently in Chicago. In this new shaving parlor each patron shaves himself. He is assigned to a booth in which he finds soap, razors, brushes, towels, powder, toilet lotions—in fact everything with which to give himself a good shave. There is little or no waiting in this shop and no one is eligible for tips.—From the July Popular Mechanics Magazine.

#### For Tourists' Pleasure.

Paris, July 8.—Rheims Cathedral will not be repaired for several years after the war closes, according to the plans of the French Government as outlined by the Petit Journal. This decision has been reached in order that Frenchmen and foreigners may have an opportunity to see how the cathedral has suffered from German gunfire.

A woman can get more in o'a trunk, but a man has something "on" her when it comes to stowing a derby hat safely in a suitcase.

#### ARE MEN PEOPLE?

[New York Tribune.]

Of 100 people who are very ill when they have a sore finger—99 are men.

Of 10 people taking two seats instead of one in the subway—9 are men.

Of 25 people forgetting umbrellas at people's houses—24 are men.

Of 10 per cent of people falling asleep at the opera—all are men.

Of 20 per cent of people particular about the brand of eau de quinine for growing hair—19 per cent are men.

Of 50 per cent of the people who borrow a quarter, pencils, mucilage, &c., &c., and forget to return them—49 per cent are men.

#### Mixed Metaphor.

It was a New England parson who announced to his congregation one Sunday, "You'll be sorry to hear that the little church of Jonesville is once more tossed upon the waves, a sheep without a shepherd."—Christian Register.

#### All Doubled Up.

"Spell your name!" said the court clerk, sharply, according to the Ladies' Home Journal.

"The witness began; "O, double T, I, double U, E, double L, double—"

"Wait!" ordered the clerk; "begin again!"

The witness replied: "O, double T, I, double U, E, double L, double U, double O—"

"Your Honor, roared the clerk, "I beg that this man, be committed for contempt of court."

"What is your name?" asked the judge.

"My name, Your Honor, is Ottowell Wood, and I spell it O, double T, I, double U, E, double L, double U, double O, D."

#### HOWELL ITEMS.

Miss Mary Quarles was the hostess of the Book Club Wednesday afternoon. The guests were entertained in the yard and the feature of the afternoon was a contest, Miss Evelyn Wilson, of Lebanon, Tenn., winning the prize. Miss Quarles assisted by Miss Franees and Olney Wilson, served an ice course.

The Howell ball team played a double-header at Elmo the Fourth. Howell won the morning game by the score of 6-2 and Elmo the afternoon game by 5-1.

Mrs. Sneed Davie and daughter, Mrs. Gwinn, of Oklahoma, are the guests of Mrs. Henry Young.

Hugh Giles, of Pittsburg, Pa., is at home on his vacation.

Miss Helen Manson, of Clarksville, is the guest of Mr. and Mrs. W. W. Radford.

Mrs. Gillie Moss is the guest of her mother, Mrs. Sumner.

Rev. M. M. McFarland has returned from Russellville, where he attended

the Baptist Assembly.

O. M. Wilson and Roy Meacham continue on the sick list.

There will be the regular services at Olivet Sunday morning at 11 and Sunday night at 7:45. All are invited to attend.

#### CARD OF THANKS.

We desire to extend our sincere thanks to those who tendered their assistance and sympathy in connection with our recent bereavement—the loss of our husband and father—and to the donors of the many beautiful floral offerings.

MRS. L. M. TAPPAN AND CHILDREN.

#### FERRELL'S BOYS.

The Executive Committee of the Ferrell's Boys will hold their regular weekly meeting at the office of the Chairman, Geo. E. Gary, this afternoon at 3:30 o'clock.

Every member's presence is desired, as the reunion plans will be further arranged.

**Should Sloan's Liniment Go Along.**

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.—Advertisement.

**Bits About Holland.**

The Dutch people occupy a country which contains 12,630 square miles—little more than one-tenth the size of Great Britain and Ireland, the population being just over 6,000,000. Holland is not only flat, it is hollow. Hence its name—"Hollowland." Along the canals the meadows are ten feet or twelve feet, sometimes more, beneath the water line. By the sea, at high tide, there may be a difference in the level of the soil and of the ocean of quite twenty-feet or more. Gin is distilled at Schiedam, Delft, Rotterdam, and Amsterdam. The distilleries of gin ("Hollands") form an important branch of Dutch industry. The liquor factories are of national importance. Something like nine-tenths of all the margarine sent to England comes from Holland. Every Dutch citizen is liable to personal service in the army (or navy) from the age of nineteen to forty. Actual service in the ranks is determined by lot, but substitution is not permitted.

**The Best Book**

Of course the best book is the Bible. The man who said the best book was the pocket book, tried to say something smart and failed.

A bank book is a better book than a pocket book. The thief might steal your pocket book, or you might lose it in many ways. It's gone for good, too. But in case of accident we will gladly supply you with another bank book and your funds will always be secured in our bank. Place your dependence on a bank book in preference to a pocket book every time. We will furnish you a nice one free any time you wish to open an account.

For Nice Job Work Come Here

# WAR! What Is It? All About?

**H**AS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armour glistening just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

## FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great war up to the present time; over 50 important articles and special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and documents exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hun-

dreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an indelible impression.

### Your War News Clarified

It is not enough to read the daily news reports. You must analyze them, compare conditions and discuss them rationally demands a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.

**Send no Money**

If the book isn't worth more than you pay for book and magazine together, send it back at your expense. But be prompt. The world-wide fame of this company will make these few volumes disappear from our stock room at once. Send your Coupon today—and be in time.

### ANNOUNCEMENT

Dr. Martha Beard, Osteopath, is absent from the city during the month of July and her practice will be looked after by Dr. Leonora Bruner, of Chicago. Her residence phone is 446-1. Office in Cherokee building. Phone 703.

### REBUKED.

The persevering landscape painter knew that he had an observer looking over his shoulder at the easel. He knew from the rustle of skirts that the observer was a woman; yet he worked steadily on. Presently the observer spoke.

"A charming landscape," she said. "Ah, you flatter me," said the artist modestly. "Compared with the original landscape it is very poor stuff."

"I meant the original," said the observer.

### A NEW METHOD.

Blondine—Mrs. Giddigad has adopted a definite plan for raising her boy.

Brunette—Along what lines? "She never says 'Don't' to him."

"I know it. She just reaches over under the table and kicks him on the shins."—Youngstown Telegram.

### Ample Proof.

Judge (in breach of promise case)—And you claim to have been temporarily insane when you proposed to the plaintiff?

Defendant—Yes, your honor.

Judge—Can you prove it?

Defendant—I can, your honor, if you can induce the plaintiff to remove her veil so the jury can see her face.

### FOREIGN POWERS ON WATCH

All Governments Find It Hard Work to Guard Secrets of a Military Nature.

The protection of government secrets has always required the greatest vigilance. Each nation is inquisitive as to what every other country is accomplishing in inventing new appliances for war purposes. The construction of warships, for example, calls for much secrecy. Neutral powers must guard well their naval secrets. Offenders against the neutral policy of a country should also bear in mind the severe punishment in store for them, for discovery is certain sooner or later.

Many government secrets do leak out in every country. This is owing to the lure of gold and to the activity of unknown secret agents. The United States, in common with other nations, has its secret service, and perhaps it is as successful as any other similar agency.

American inventors should not make public certain inventions without first offering them to the government, in that way they could be kept secret.

Scientific means for the protection of a country have not been exhausted. Indeed, they are only just beginning to be used. Present naval secrets of neutral powers may prove of slight importance compared with the possible methods of warfare in the future. These new methods devised here should be solely at the disposal of the United States, and unknown until it is necessary to use them.—Boston Globe.

### HOME NO PLACE FOR POISON

Frequency of Accidents Should Impress That Fact on All—National Law Seems Needed.

United States public health reports recall attention to the fact that such a large number of deaths take place every year in this country from the unintentional use of poison that it would evidently be a very good thing if people generally could be persuaded never to keep poisons in the home, the New York Herald states. The advantages to be derived from them are never quite equal to their dangers.

Deaths from dichloride of mercury, carbolic acid and other such substances continue to occur with such frequency. No amount of warning will protect against inadvertence or ignorance, and fatal accidents from the mistaking of a dangerously potent drug for one that is comparatively inert have become staple, often reiterated items of news in recent years.

In the present rather confused state of our laws with regard to poisons in this country, due to the fact that each of the states makes its own legislation in this matter, it is probable that until an efficient national law can be enacted a definite crusade of persuasion against the dangerous practice of keeping poisons for any reason in the home would serve to save many lives every year. It is a simple matter, yet of very great importance to the community. The authority of the United States public health service should literally bring it home to many.

**Uses of the Sunflower.** The sunflower is cultivated to a considerable extent in central Russia, where every part of the plant is put to certain economic uses. The discovery of the extreme lightness of the pith of the stalk has essentially increased the commercial value of the plant. This light cellular substance is now carefully removed from the stalk and applied to a good many important uses. One of its chief uses is the making of the life-saving appliances.

Cork with a buoyancy of one to five, and reindeer's hair with one to ten, has been used; the pith of the sunflower has a buoyancy of one to thirty-five. The latter can be used advantageously in the construction of boats and life preservers. A sufficient quantity can be worn on a person without any inconvenience. The pith of the larger sunflower stalks is used extensively as a substitute for other materials formerly employed in making moxas for cauterizing purposes.

**Invalid's Tray Stand.** Just a soap box, with the sides knocked out and the ends strengthened by an extra nail or two, then turned upside down so that the bottom becomes the top. And you've a strong little stand that fits over the invalid's knees and keeps the weight of the tray from her.

Of course, if you've all the money to surround your especial invalid with all the luxuries and easings-up contrivances invented, this suggestion is wasted upon you, unless you happen to have someone sick when you are deep in the woods or other inaccessible place. But, if you're having enough trouble paying doctor and drug bills and buying extra things to tempt that fitful appetite, cudgeling your brains (instead of sitting down hemoing fate) will bring out many an idea like this helpful to your well-loved one.

### Ample Proof.

Judge (in breach of promise case)—And you claim to have been temporarily insane when you proposed to the plaintiff?

Defendant—Yes, your honor.

Judge—Can you prove it?

Defendant—I can, your honor, if you can induce the plaintiff to remove her veil so the jury can see her face.

### MEN IN MIND IN HOPKINSVILLE

Prominent Factors in The Busy Life of the Pearl City.

#### BIOGRAPHICAL SKETCH 95

Youngest Business Man Who Has Appeared in These Sketches.

C. M. WILLIAMSON.

Cyrus M. Williamson, better known as "Cy," is the youngest business man so far presented in this series of sketches. He is a native son of Hopkinsville and was born August 29, 1894. He is not yet 22 years old and yet has been a prosperous merchant for several years.

Cy got his early education in the

city schools and then took a two years' course in McLean College, the last years it ran. As soon as he was out of school he looked around for a job and found one to his taste in the gents' furnishing house of Blades-Cary Co. In a year he had learned the details of the business and liked it so well that he bought out the interest of Mr. Blades and the company on January 1, 1915, having been changed to Cary-Williamson Co. moved into larger quarters in the remodeled Chickasaw Building on Ninth street. Here under the personal direction of Roy Cary and Cy Williamson has been built up a fine store for men. They handle the American Art Tailoring Co.'s clothing and carry a complete line of gents' furnishings, shirts, collars, hats and all kinds of goods for men. Their store has become a popular trading place and its business has shown a steady and substantial growth. Both partners are young men of stirring qualifications, exemplary habits and bright prospects for greater things.

Roy is married but the girls still have a chance at Cy. As will be seen from the picture above, his personal dash will make most any pretty girl turn around and take a second look as he goes by. And why not? A handsome young man, well established in business, of rising prominence and boundless ambition is not to be sneezed at in these days when the world war is making a growing demand for marriageable men everywhere. He has, however, remained single the first half of the leap year, but there is no telling what may happen before the ground freezes.

Cy is not much of a "jiner," at present holding membership only in the Baptist church and the Hopkinsville Business Men's Association.

The use of oxygen inhalers has made possible balloon ascensions above 25,000 feet.

#### Herndon Items.

Herndon, Ky., July 5, 1916.—Most of our citizens celebrated the Glorious Fourth picking blackberries.

Mr. Luther Wolfe, Jr., was the guest of Miss Lois Stone, of Lafayette, Sunday night.

Mrs. Walter Edwards, of Florida, is visiting relatives in this neighborhood.

Roy and Clyde Crawley, of Henderson, and Maurine and Maxine Blythe, of Hopkinsville, are guests of Mrs. R. S. Lindsey.

Miss Nell Dawson is visiting Miss Willie Mai Brown, in Chicago, Ill.

Little Misses Cecil Crenshaw, Cecil Wolfe, Georgie Buchanan and Janie Stevenson, are visiting friends near Roaring Spring, Ky.

Mary Crenshaw, Dorothy Gates and Anne Stevenson are guests of relatives near Lafayette, Ky.

Mr. and Mrs. Turner, of Russellville, Ky., visited Mr. and Mrs. Warren Turner last week.

Whooping cough, in its worst form, is raging in this neighborhood. The extreme hot weather has been hard on the little sufferers.

Miss Jennie Coleman, of Gracey, Ky., is visiting Mrs. H. H. Coleman.

Mr. Whit Buchanan was a guest of Miss Sybil Stewart Boxley, at Douglass, Ky., Sunday.

Misses Myrtle Dawson and Mabel Wolfe and Messrs. Chas. Sively and Luther Wolfe motored to Kennedy, Ky., Sunday in Mr. Sively's Ford touring car and spent the day with Mr. and Mrs. Claude Campbell.

It is said that a single drop of nicotine will kill a rabbit in three and a half minutes.

### PROMINENT PHYSICIAN

Is Badly Hurt While Making a Call Near Trenton Wednesday Night.

Dr. J. R. Paine, of Pembroke, was severely injured Wednesday night about 10 o'clock while making a call near Trenton. A little negro boy was with him in his buggy and in turning out to meet a wagon in the road Dr. Paine's buggy was turned over. He fell with such force as to break his hip. The boy escaped injury.

Dr. Paine was taken to his home in an automobile and received prompt surgical attention. Dr. Paine is one of the prominent physicians of the county and is 70 years of age.

His condition is as satisfactory as could be expected, but he will be laid up for a long time.

#### Yacht Upset.

Frankfort, Ky., July 7.—Frances Champ, daughter of Swift Champ, editor of the Bourbon News, Paris;

Ann Emery, of Paris, and Carroll Dale and Eugene Buchignani, of Lexington, were drowned in the Kentucky river, three miles above Frankfort, shortly before midnight Tuesday night by the capsizing of a small yacht in which they were riding by the barge Helen M., on which a dancing party was being held.

It is said that a single drop of nicotine will kill a rabbit in three and a half minutes.

### Airships

In navigating the air reach into the regions of purest ozone, but people do not live in airships.

### THE QUESTION OF PROPER Ventilation in Their Houses,

With Plenty of Fresh Air in Summer and Winter, WITH AN UP-TO-DATE HEATING PLANT for Winter weather at the LOWEST COST is of far more importance. I have given this branch of the business my special attention and am prepared to give you benefit of long study and experience. Let me figure with you on your buildings.

J. H. DAGG

#### Institutional Treatment of Tuberculosis

means that the patient is given constant attention; that the regime which is found to be best adapted to the case is rightly adhered to; that a resident physician is at hand all of the time, studying the case and adapting the treatment to it; that nursing service is the best. All of these things mean improvement, greater comfort and possible recovery. Hazelwood is operated without profit by the Louisville Anti-Tuberculosis Association. Rates \$12.50 a week. Write for detailed information.

Hazelwood Sanatorium

DR. O. L. MILLER, Physician in Charge, LOUISVILLE, KY.
